

SHOW 3rd Pan-European Workshop

Dr Henriette Cornet
SHOW Coordinator &
Thematic Area Leader Automated Mobility | UITP

Madrid | 19 October 2022

Agenda

Start	End	Time	Item	Speaker
9:30 AM	10:00 AM	0:30	Welcome coffee	
10:00 AM	10:15 AM		Welcome by the SHOW Coordinator and Technical Manager	Henriette Cornet, UITP Angelos Bekiaris, CERTH/HIT
			Stakerholders' mission and vision for Automated Mobility:	
10:15 AM	10:25 AM	0:10	Introduction by EMT	Alberto Alonso Poza, EMT
10:25 AM	10:35 AM	0:10	Introduction by Madrid City Council	Fernando Herrero, Madrid City Council
10:35 AM	10:45 AM	0:10	Introduction by the European Commission	Suzanna Kraak, European Commission
10:45 AM	11:15 AM	0:30	First insights and lessons learned from SHOW	Anna Anund, VTI Pekka Eloranta, SITOWISE
11:15 AM	11:45 AM	0:30	Coffee break	
11:45 AM	12:15 PM	0:30	First insights and lessons learned from SHOW	Marek Vanžura, CDV Florian Kuhnt, FZI
12:15 PM	12:35 PM	0:20	The ABSOLUT project - Insights from Leipzig	Mario Nowack, Leipzig Transpor Authority
12:35 PM	12:55 PM	0:20	The Ride2Autonomy project - Insights from Barcelona	Giel Mertens, Pendel Mobility
12:55 PM	1:55 PM	1:00	Lunch break	

Agenda

12:55 PM	1:55 PM	1:00	Lunch break	
1:55 PM	2:55 PM	1:00	Panel discussion	Maria Gkemou, CERTH/HIT, Sergio Fernández Balaguer, EMT, Suzanna Kraak, European Commission & Mario Nowack, Leipzig Transport Authority
2:55 PM	3:25 PM	0:30	SHOW activities in Madrid	Sergio Fernández Balaguer, EMT Lucia Isasi, Tecnalia Borja Gorriz, Irizar Mauro Gil, Indra
3:25 PM	3:40 PM	0:15	Adjournment	
3:40 PM	4:00 PM	0:20	Meeting outside the hotel	
4:00 PM			Bus transfer to Carabanchel bus depot	

SHOW in a nutshell

Deployment of shared, connected and electrified automated vehicles to advance sustainable urban mobility

Coordinated by UITP

70 partners from 13 EU-countries

January 2020 - December 2023

30 Mio. EUR funding from European Commission

SHared automation Operating models for Worldwide adoption

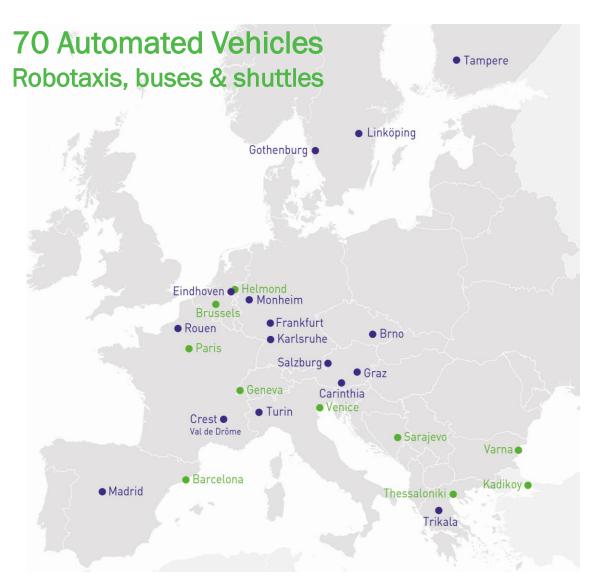

SHOW is the largest initiative for shared Automated Mobility in Europe

SHOW real-life demos have started and attract public & policy makers' attention

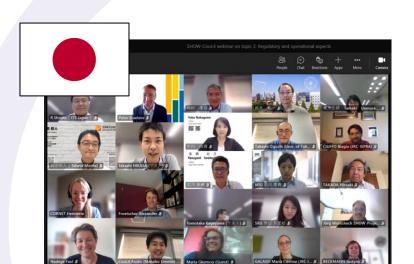

SHOW has impact beyond the European boarders

National Cheng Kung University

Beijing Jiaotong Technical University

George Institute of Health

Thank you!

SHOW 3rd Pan-European Workshop

Dr Evangelos Bekiaris
SHOW Technical & Innovation Manager & Director of CERTH / HIT

SHOW will deploy more than 70 SAE L4 AVs for both passenger and cargo transport in dedicated lanes and mixed traffic,

connected to a wide range of supporting infrastructure ($\mathbf{5G}$, \mathbf{IoT}) and operating

under traffic speeds ranging from 18 to over 50km/h.

Use Cases in SHOW

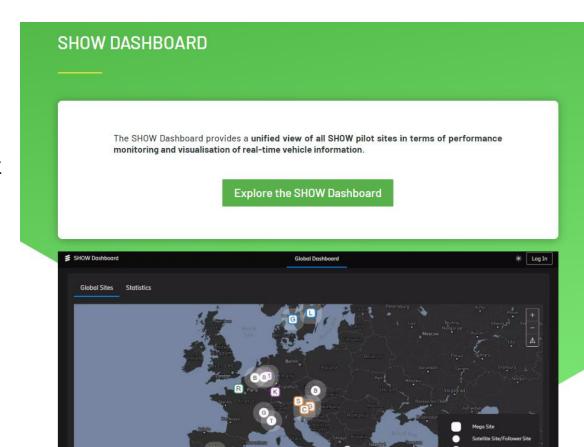

- Automated mobility in cities
 - Under normal / complex traffic & environmental conditions
 - With interfaces with road users including VRU
 - Connecting to Operation Centre remote supervision (& tele-operation) & to TMC
 - Applying platooning
 - Seamless autonomous transport chains of automated PT, DRT, MaaS, LaaS
- Automated mixed mobility in cities
 - For persons and goods (mixed spatial/temporal mobility)
- Added-value services
 - Big data/Al based services for passengers & cargo
 - Automated parking & depot management
 - Automated services at bus stops
 - COVID free services

Where we stand... (1/2)

- Local architectures and ecosystems established
- Business models explored, validated new ones emerging as well
- Vehicle advancements are reflected in vehicle demonstrators across the sites to get validated (frequent s/w updates)
- Permits, infrastructure preparation and technical validation almost closed in all sites
- Data collection methods and tools in place
 - On-line surveys, Interviews, Stakeholder Workshops
 - addressing all key actors experience (passengers, operators, safety drivers, ...)
 - Dashboard (for performance data logging and visualization in public) – Check out at: https://show-project.eu/show-dashboard/

Where we stand... (2/2)

- **Pre-demo** (1st rehearsal public round of test sites prior to fully open to public operation) **is closing for the majority of the test sites**
- Sites are progressively moving to open public operation expected to last on average until end of September 2023
 - In conjunction with demo events, open to all
- Follower sites are joining SHOW matchmaking process for following SHOW site activities and replicating services in their local context

Insight in first results Performance data

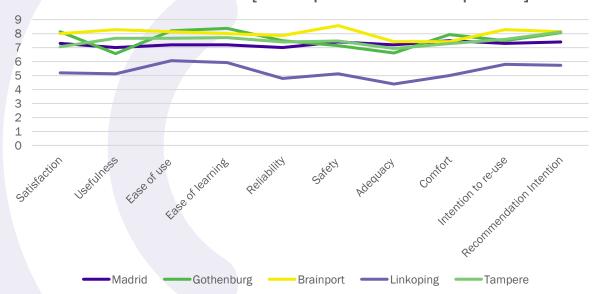

- ≈15km/h average speed
- More than 22,400 passengers have been transported across all test sites already!
- $\approx 100,000$ Kms travelled so far for SHOW (in all sites running so far)
- In 5 sites 14 months of summative operation so far
 - 6,400 hard breaking events (threshold = 3m/sec²)
 - 1 accident leading to slight injury
 - 884 conflicts with other road users (including VRUs) and infrastructure

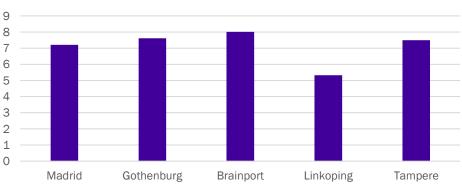

Insight in first results User Acceptance Results – An excerpt

Average Scores of Acceptance Factors per Pilot Site in Predemonstration Phase [1: less positive - 10: most positive]

Average General Acceptance Score per Pilot Site in Pre-demonstration Phase [1: less positive - 9: most positive]
